

HEALTHEAST MEDICAL TRANSPORTATION
MEDICAL OPERATIONS MANUAL
Table of Contents (TOC)

- i. **Preface**
- ii. **Changes in version 2016.1**
- iii. **Scope of Practice**

Section 1: General

- 1A Overview of Patient Care Guidelines
- 1B General Assessment and Care
- 1C Pain and Nausea Management
- 1D Anxiety and Sedation Management

Section 2: Cardiac

- 2A Chest Pain/Acute Coronary Syndrome (ACS)
- 2B Cardiac Arrest Management
- 2C Ventricular Fibrillation/Pulseless V-Tach
- 2D PEA/Asystole
- 2E Hyperkalemic Arrest
- 2F Post-Arrest Management
- 2G Bradycardia/Heart Block
- 2H Paroxysmal Supraventricular Tachycardia (PSVT)
- 2I Wide Complex Tachycardia
- 2J Atrial Fib/Flutter
- 2K Ventricular Ectopy
- 2L Cardiogenic Shock
- 2M Symptomatic Hypertension

Section 3: Medical

- 3A Upper Airway Obstruction
- 3B Asthma, COPD, and Bronchospasm
- 3C Acute Pulmonary Edema
- 3D Altered Mental Status
- 3E Stroke
- 3F Seizures
- 3G Hypoglycemia
- 3H Hyperglycemia
- 3I Sepsis/Septic Shock
- 3J Behavioral Emergencies
- 3K Overdose
- 3L Gastrointestinal Emergencies

Section 4: Trauma

- 4A Trauma Care
- 4B Burns
- 4C Eye Injuries
- 4D Submersion Trauma
- 4E Nosebleed
- 4F Taser and Chemical Irritants

Table of Contents (TOC)

Section 5: Environmental

- 5A Allergic Reaction/Anaphylaxis
- 5B Hypothermia
- 5C Hyperthermia
- 5D Toxic Exposure

Section 6: Obstetrics

- 6A Normal Labor and Delivery
- 6B Complications of Labor and Delivery
- 6C Neonatal Resuscitation
- 6D Complications of Pregnancy
- 6E Trauma in Pregnancy

Section 7: Procedures

- 7A Nasopharyngeal Airway
- 7B Oropharyngeal Airway
- 7C Bag Valve Mask
- 7D CPAP
- 7E Supraglottic Airway
- 7F Advanced Airway Management
 - 7F1 DFAM
 - 7F2 Direct Laryngoscopy
 - 7F3 Video Laryngoscopy
 - 7F4 Quicktrach
 - 7F5 Needle Cricothyrotomy
 - 7F6 Ventilator Management
- 7G Pit Crew CPR
 - 7G1 ResQPOD
 - 7G2 LUCAS Device Application
- 7H 12-Lead ECG and Cath Lab Activation
- 7I Transcutaneous Pacing
- 7J Synchronized Cardioversion
- 7K Level One Trauma Triage and Transport
- 7L Bleeding Control
- 7M Selective Spinal Precautions
- 7N Kendrick Extrication Device (K.E.D.)
- 7O Splinting
- 7P Chest Decompression
- 7Q Intravenous (IV) Access
- 7R Intraosseous (IO) Access
- 7S External Jugular (EJ) Access
- 7T Medication Administration Cross Check
- 7U Intranasal (IN) Medication Administration
- 7V Nebulized Medication Administration
- 7W EpiPen Administration
- 7X Glucometry

7Y Helmet and Athletic Equipment Removal

Section 8: Medications

Acetaminophen (Tylenol)
Adenosine (Adenocard)
Albuterol (Proventil)
Amiodarone (Cordarone)
Aspirin
Atropine
Calcium Chloride/Calcium Gluconate
Dextrose 10% (D10)
Diltiazem (Cardizem)
Diphenhydramine (Benadryl)
Dopamine (Inotropin)
Droperidol (Inapsine)
1:1,000 Epinephrine (Adrenalin)
Epinephrine (Adrenalin) 1:10,000
EpiPen & EpiPen Jr.
Etomidate (Amidate)
Fentanyl (Sublimaze)
Glucagon Hydrochloride (Glucagon)
Haloperidol (Haldol)
Hydroxocobalamin (CyanoKit)
Ibuprofen (Advil, Motrin)
Ipratropium Bromide/Albuterol (Duoneb)
Ketorolac (Toradol)
Lidocaine
Lorazepam (Ativan)
Magnesium Sulfate
Methylprednisolone (Solu-Medrol)
Midazolam (Versed)
Morphine Sulfate
Naloxone (Narcan)
Nitroglycerin, Infusion
Nitroglycerin, Sublingual
Norepinephrine (Levophed)
Ondansetron (Zofran)
Oral glucose (Glucose)
Oxygen
Oxymetazoline (Afrin)
Pancuronium
Phenylephrine (Neo-Synephrine)
Racemic Epinephrine
Rocuronium
Sodium Bicarbonate
Succinylcholine (Anectine)

Vecuronium (Norcuron)
Verapamil (Calan)

Section 9: Clinical Policies

Clinical Policy Executive Summary
9.0 Patient Defined
9.1 Patient Consent
9.2 Medical Control
9.3 Patient Care Report (PCR) Documentation
9.4 Patient Safety Event Reporting
9.5 Medication Administration and Safety
9.6 Provider Responsible for Patient Care
9.7 Physician on Scene
9.8 Withholding and/or Discontinuation of Resuscitation
9.9 Do Not Resuscitate (DNR) and Do Not Intubate (DNI) Patient Care
9.10 Hazardous Materials and Environments
9.11 Care at Standby Events
9.12 No Transport and Refusal of Care
9.13 Crime Scenes and Prisoner Transport
9.14 Violence and Threats to Safety
9.15 Voluntary and Involuntary Patient Transport
9.15b: Emergency Hold Form
9.16 Patient Physical and Chemical Restraints
9.17 Patient Ambulation, Lifting, and Stretcher Operations
9.18 Patient Safety Restraints (seat belts)
9.19 Acceptable Methods of Transporting Patients
9.20 Pediatric Patient Transports
9.21 BLS versus ALS Transport
9.22 Family Members Accompanying Patient in the Ambulance
9.23 Lights and Siren (Code 3) Patient Transport
9.24 Hospital Destination Determination
9.25 Hospital to Hospital Transfers
9.26 Hospital to Home or SNF Transports
9.27 Safe Place for Newborns
9.28 Mandated Reporting of Maltreatment
9.29 Standard Precautions and Personal Protective Equipment Use

Section 10: Reference Guides

Reference 1 Approved Abbreviations
Reference 2 Body Surface Area Chart
Reference 3 Coma Scales
Reference 4 Normal Lab Values
Reference 5 Common Prescription Medications
Reference 6 Handtevy Guidelines
Reference 7 Pediatric Assessment Tools
Reference 8 Stroke Scales
